

Individually Strong. Collectively Powerful.

A premium collective where systems, strategy, design, automation, and growth operate as one.

Althea Flow was built on a simple idea: individual excellence becomes exponentially more powerful when the right disciplines move together.

We united founders, operators, technologists, strategists, designers, and growth specialists under one editorial system so brands can move with more clarity, better execution, and stronger digital presence.

Batuhan Dölger, Alper Yılmaztopcuoğlu, Hannes Krauss, Sinan Mintaş, Ali Akgün, Can Erdenk, Mustafa Yarımay

Founder

Batuhan Dülger

Founder & AI Native Growth Architect

Systems • Strategy • Creative Infrastructure

I saw early that the future would belong to those who understand AI not as a tool, but as the foundation of a new era. My ambition has always been to position myself at the highest level of that transformation, building systems where intelligence, design, strategy, and execution converge into one future defining engine.

I do not simply adapt to what is coming next, I build for it. My work spans premium digital commerce infrastructures, intelligent automation systems, AI native growth frameworks, advanced creative production pipelines, and future facing media ecosystems designed to operate at scale.

Experience

Althea Growth Founder & AI Native Growth Architect

AI Systems & Automation AI Executive & Multi Agent Systems

Visa Automation Platform Commercial AI Product

Althea Vita Concept Founder & Creative Director

Hyperion Glow Founder

Lamperios Atelier Creative Content, Social Media & Marketing Lead

Kremlin Palace Hotel Antalya Social Media Management & Digital Marketing

Selected work

TerraWatch

Satellite InSAR that measures ground motion on Gulf reclaimed land, with point dossiers, alerts and portfolio views.

Operating system for a trading company

A Turkish language operating system for a trading company, with an approval queue and an assistant that drafts and briefs.

X marketing autopilot

Plans and publishes an account's own posts on X under daily caps, and drafts replies for a person to send.

Brand

Alper Yilmaztopcuoğlu

Brand Strategist | Sales, Marketing & Founder Of Orphea Society

Positioning • Distribution • Market Expansion

I connect brand vision with commercial growth across premium retail, automotive, tourism, e commerce, and live business environments. My background combines sales leadership, market expansion, distribution management, and operational execution across the UAE, Turkey, Europe, the Middle East, and Africa.

I work where positioning, partnerships, and revenue meet. The goal is always to turn visibility into market traction and market traction into durable growth.

Experience

EMC, Abu Dhabi Sales & Marketing Manager

Gargash, Dubai Sales & Marketing Manager

GOME Europe Middle East & Africa Operations, Sales & Marketing Manager

Olympia Türkiye Marketing Manager

Travel company, Dubai CEO

4 HIRE, Dubai Business Owner / Operator

Selected work

AI real estate videos, Dubai

Short vertical AI videos for Dubai real estate: the client on rooftops, construction sites and the golf course, cut for social.

Fakir product ad video template

A reusable AI ad video template for Fakir home appliances, shown here on a cordless vacuum. Not yet approved by the brand.

Product Research Intelligence

Scores product ideas on marketplace velocity, search demand and social momentum before a market gets crowded.

Cyber Security

Hannes Krauss

Founder & Senior Security Software Architect & Cyber Security Specialist

Security • Architecture • Threat Intelligence

I understood early that security cannot be bolted on at the end. It has to be the foundation everything else is built on. My ambition has always been to sit at the exact point where two disciplines meet: the offensive mindset that finds the weakness, and the architectural discipline that designs the system so the weakness never exists.

I do not separate building from defending. My work spans secure software and data architectures, threat intelligence and penetration testing, multi cloud backend systems, and GDPR grade governance designed to operate under real world pressure, at scale.

Experience

KRASPER TECHNOLOGIES Founder & Cyber Security & AI/LLM Specialist

CORDES & GRAEFE Senior Software Architect & Technical Lead

EYEDSEC Team Lead Threat Intelligence & Cyber Security Specialist

CODIRE Senior Software Engineer

E.SOLUTIONS Software Engineer, Mobile & Backend

FINOVATION Software Engineer, Web & Core Systems

Selected work

TerraWatch

Satellite InSAR that measures ground motion on Gulf reclaimed land, with point dossiers, alerts and portfolio views.

IT

Sinan Mintaş

IT Specialist | Full Stack Systems Developer

Infrastructure • SaaS • Human Centered Systems

I build scalable digital systems, business tools, and product infrastructure that solve real operational problems. My background combines full stack development, backend architecture, database management, SaaS logic, NFC systems, and automation.

My perspective on technology is shaped by clarity, accessibility, and human centered problem solving. I aim to create systems that are reliable, scalable, and valuable in real business environments.

Experience

SupplyBridge Supply and Waste Management System

WhatsApp PDF Distribution Tool Secure Document Workflow Platform

SurveyMaster Customer Feedback Platform

Enterprise Security & Access Systems Internal Control Systems

NFC Business Card & QR Table Solutions Smart Interaction Systems

AI Powered Review Management System Automation Platform

Selected work

Account Password Security

Password policy, MFA, credential health, breach detection and an encrypted vault, with a full audit trail.

DocLinker

Secure link based sharing for catalogues, contracts and invoices over WhatsApp, with permissions and delivery analytics.

SupplyBridge

Purchasing approvals, stock, suppliers and waste for multi branch restaurants and hotels, in one multilingual dashboard.

AI

Ali Akgün

AI Revenue Systems Operator | AI Agents & Automation

Revenue • Agents • Workflow Intelligence

I build AI powered systems that connect sales, customer communication, and operations into automated, revenue generating workflows. My work combines real world operations knowledge with AI agents, voice systems, lead generation, and booking automation.

The goal is not to build tools for their own sake. The goal is to build systems that save time, increase conversion, and scale execution.

Experience

AI Tourism Sales & Reservation System Voice Agent & Booking Automation

AI Restaurant Reservation System Reservation Automation

Visa Appointment Automation Monitoring & Slot Capture System

Gome Europe, Dubai Business Development & Sales

Sixt Rent a Car, Istanbul High Volume Operations

BTB Tours, Dubai Tourism Operations & Customer Handling

Selected work

AI Tourism Sales & Reservation System

A voice agent that handles tourism calls end to end: questions, sales, bookings and the follow up.

Airtable Sales Agent

Runs the sales pipeline from intake to proposal and follow up, driven by Airtable, playbooks and Gmail.

Automated Cold Call Agent

An outbound voice agent that calls leads, qualifies them and books consultations with no human on the line.

Design

Can Erdenk

Design Systems & Creative Production Specialist

3D • Motion • Interactive Visual Systems

I design visual systems that connect branding, storytelling, digital production, and fabrication into cohesive high impact experiences. My background combines 3D design, motion graphics, campaign visuals, interactive production, product design, and physical build processes.

I work across both digital and physical outputs so brands do not only look good on screen. They feel present in space, campaigns, and environments.

Experience

Interactive Digital Panel Production BSH via Desibel Agency

Neon Lighting and Product Design Hyperion Glow

3D Promotional Campaign Assets Stella Artois

Creative Design and Brand Visual Development Innova Future Agency

Interactive Event and Digital Production Desibel Agency, Istanbul

Freelance 3D Design and Visual Production Remote Italy

Selected work

Stella Artois 3D campaign assets

3D campaign visuals for Stella Artois as official supplier of Roland Garros: event screens, brand environments and broadcast ready outputs.

Hyperion Glow

A custom neon fabrication brand, from product design and workshop to digital growth, including an official Anadolu Efes collaboration.

Interactive digital panel for BSH

Visual assets and production for one of the country's first fully live, interactive online panel experiences, for BSH via Desibel Agency.

Growth

Mustafa Yarımaya

Social Media & Digital Growth

Growth • Content Systems • Performance Strategy

I build scalable social media systems, content workflows, and performance driven digital growth structures. My background spans content execution, audience development, paid ads, conversion thinking, and real world customer handling.

I focus on consistency, engagement, and commercial clarity so digital presence grows in a way that is sustainable and measurable.

Experience

all.incommunity Social Media Systems & Audience Targeting

Senamiaonline Full Social Media Management

Suicide Hotline Social Media & Paid Advertising

Inditex & Dossha Sales & Customer Experience

Tourism & Transportation Business Operations & Client Relations

AI real estate videos, Dubai

Short vertical AI videos for Dubai real estate: the client on rooftops, construction sites and the golf course, cut for social.

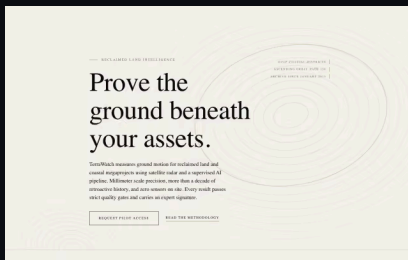

Fakir product ad video template

A reusable AI ad video template for Fakir home appliances, shown here on a cordless vacuum. Not yet approved by the brand.

Social Media Growth Engine

Strategy, short form storytelling, targeting and funnels across Instagram, TikTok and Meta, run as one acquisition system.

Selected work

TerraWatch

Pilot, Security & Intelligence, Automation & Data, Operating Systems & Dashboards

Satellite InSAR that measures ground motion on Gulf reclaimed land, with point dossiers, alerts and portfolio views.

AI real estate videos, Dubai

Delivered, Media & Motion, Brand & Sales

Short vertical AI videos for Dubai real estate: the client on rooftops, construction sites and the golf course, cut for social.

Operating system for a trading company

Live, Operating Systems & Dashboards, AI Agents & Voice, Automation & Data

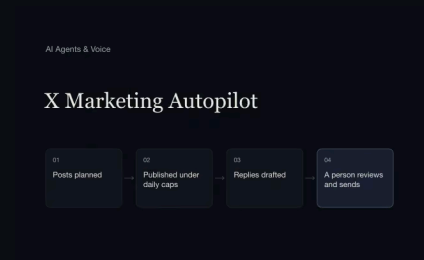

A Turkish language operating system for a trading company, with an approval queue and an assistant that drafts and briefs.

Broker acquisition dashboard, Dubai

Live, Operating Systems & Dashboards, AI Agents & Voice, Automation & Data

One dashboard for a broker: ads, social, CRM, voice agents, listings, valuations and compliance, in personal and agency mode.

X marketing autopilot

Live, AI Agents & Voice, Automation & Data

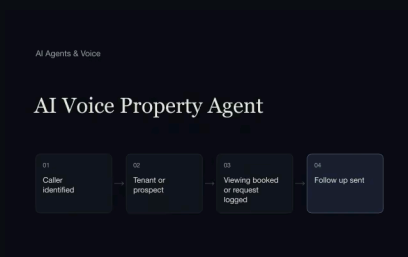

Plans and publishes an account's own posts on X under daily caps, and drafts replies for a person to send.

Stella Artois 3D campaign assets

Live, Media & Motion

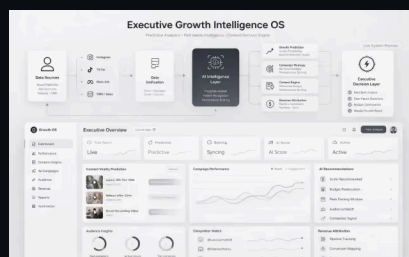

3D campaign visuals for Stella Artois as official supplier of Roland Garros: event screens, brand environments and broadcast ready outputs.

AI Voice Property Management Agent

Pilot, AI Agents & Voice

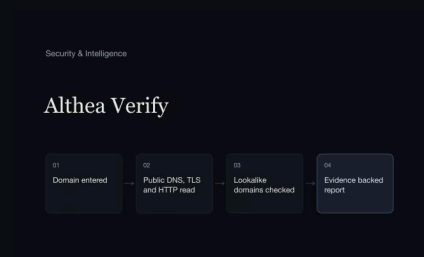

A voice agent for Dubai property operations: lead qualification, viewings, tenant and landlord calls, follow ups and routing.

Social Media Growth Intelligence OS

Pilot, Operating Systems & Dashboards, Automation & Data

One executive layer for social and ad data: attribution, spend, virality scoring, competitor watch and AI recommendations.

Althea Verify

Internal, Security & Intelligence, Automation & Data

A passive security scanner that reads public DNS, TLS and HTTP records and reports only what the evidence shows.
